DORO **780X**

WHY DORO

While other brands like to talk about stunning displays, amazing cameras or the latest technology with the cool new name, we like to talk more about simplicity. That's what our fans – people who feel the effects of ageing but remain young at heart – really want. It's why "EASY" is the key building block in every Doro's DNA, shaping every detail into a phone you'll love. They're also expertly tuned to suit the more mature ear.

HEAR IT. SEE IT. LOVE IT.

No matter how young we stay at heart, age has a way of turning one's easy tasks into frustrating chores. At Doro, our phones are born from the idea that using them should always be a breeze even when hearing, seeing or dexterity declines. That's why you will always find excellent standard features such as extra loud and clear sound, high contrast displays, easy to read buttons and a large, clear interface. And of course, the widely separated keys make typing easier. We focus on the chores, so you can focus on the fun stuff.

OUR EASIEST-TO-USE MOBILE PHONE THAT MAKES SAFETY SIMPLE

Durable and splash proof (IP54) mobile phone with three speed dial keys for easily calling one's most relied on contacts. Numbers can be programmed remotely by a trusted relative via Response by Doro, and excellent safety features include an assistance button and safety timer function that can automatically dial up and send an SMS alarm with GPS location to preset numbers.

RESPONSE BY DORO

Our unique services enable trusted relatives or friends to quickly and easily manage important settings on your phone, all via an app installed on theirs. These services also keep your support network close. Just one press of your phone's assistance button sends an alarm with your location to a list of people you rely on, sounding a loud, distinct signal on their phones even if placed in 'Do not disturb' mode. More peace of mind for you, and for them.
